STATISTICAL DATA ON VIRGINIA'S PUBLIC SCHOOLS

1978-79 SCHOOL YEAR

DEPARTMENT OF EDUCATION • JANUARY 1980

COMMENTS ON *FACING UP*

Facing Up 14 represents the completion of a two-year plan to revise data published in the *Facing Up* series. The major reason for the revision is to include data reported in response to the *Standards of Quality*. Any comments or suggestions which you have concerning the revisions would be appreciated. Please note any data that you have used, but which are no longer being published.

INTRODUCTION

Facing Up was first published in 1967 as a joint project of the Division of Educational Research and Statistics (now the Division of Management Information Services) and the Office of Public Information and Publications to provide selected statistical data about Virginia's public schools. *Facing Up* has been updated annually since that time. This year's *Facing Up* has been revised to include tables reflecting data reported in response to requirements of the *Standards of Quality*.

To clarify some of the figures reported in *Facing Up*, the following definitions are provided:

Membership is the number of pupils belonging to a school unit at any given time. The total number of pupils present and absent on any given day is the membership for that day.

Average Daily Membership (ADM) is the average number of pupils belonging each day in a room, school, or school system for the period of report. ADM is determined by dividing the sum of the days present and absent of all pupils when school is in session during a given period by the number of days school is in session during this period.

March 31 Average Daily Membership is the average daily membership for the first seven months (or equivalent period) of the school year.

End of Year Average Daily Membership is the average daily membership for the entire school year.

September 30 Membership is the sum of pupils present and absent on September 30 or the school day closest to September 30. For 1978, the count would actually be as of September 29.

End of Year Membership is the sum of pupils present and absent on the last day of the school year.

Tables which have been revised for *Facing Up 14* are:

Table 1—Unchanged
Table 2—Was table 3 in *Facing Up 13*
Table 3—New table
Table 4—Unchanged
Table 5—New table
Table 6—Has been expanded from table 6, *Facing Up 13*
Table 7—Represents the combined table 5 and table 7 from *Facing Up 13*
Table 8—Unchanged
Table 9—Revised from table 10, *Facing Up 13*
Table 10—New table
Table 11—New table
Table 12—New table

Facing Up 14 has been revised to more accurately report the statistical picture of education in the public schools of the Commonwealth of Virginia.

AN EVALUATION OF *FACING UP 14* IS INCLUDED FOR YOUR COMMENTS CONCERNING THE REVISIONS. YOUR RESPONSE TO THE QUESTIONNAIRE WOULD BE APPRECIATED.

[1]Listed in this table are the division-by-division and statewide results from the Virginia Assessment Program. The results are reported in percentile equivalents of average scores; i.e., the average scores (for a division or the state) are compared with the scores of a national norm group (national sample of students). A percentile equivalent of 54 indicates that the average score is higher than the scores of 54 percent of students in the national norm group and lower than 46 percent. The 50th percentile represents an average score for students nationwide. Test scores are not precise measurements; therefore, differences in fourth- and eighth-grade scores of up to five percentile points are not considered significant and differences in eleventh-grade scores of up to eight percentile points are not considered significant.
[2]The Science Research Associates (SRA) Assessment Survey is a test battery designed to measure a child's growth in the major skill and content area.
[3]The Short Test of Educational Ability (STEA) is designed to provide an estimate of a child's general school ability.
